

Stop that Germ!

Use these ideas to keep germs away!

For Kids!

Wash your hands often. Wash them before you eat, after you use the bathroom, and with soap and water.

Cough or sneeze into your elbow. Don't cough or sneeze into your hands.

For Parents!

In addition to washing hands and coughing or sneezing into elbows, parents should clean surfaces that the family touches most often with an EPA-registered disinfectant to kill germs.

Play this game. Help your family fight germs.

1. Cut out the tickets and awards below.
2. If you see a family member forget to practice good hygiene, give them a *Germ in Progress* ticket to help them remember.
3. Give the *Germ Stoppers Award* to a family member who uses good hygiene.
4. Play for one week. Then count the awards for each person. Subtract one award for each ticket. The person with the most awards wins!
